To All Student Organization Leaders and Members,

The Center for Student Activities and Involvement is excited to announce the development of a new student organization enhancement and training series. The **OPERATION: F.I.R.E. & I.C.E.** program is our latest effort to provide student organization leaders and members with the information and tools that will lead to a successful organizational experience.

The goals of **OPERATION: F.I.R.E. & I.C.E.** are to:

- Promote the value of involvement
- Assist student organizations in goal achievement
- Inform student organizations of the University policies, procedures, and resources
- Develop general leadership knowledge and skills

The Foundations for Instilling a Relevant Student Organization Experience (**F.I.R.E.**) program has been designed with student organization leader success as the focal point. This program will *ignite your fire* as a student leader to properly manage your organization and successfully achieve your goals! Presidents of all general and sponsored registered student organizations are required to attend one session of **F.I.R.E.**

The Inspire, Cultivate, Educate (**I.C.E.**) program series has been created with organizational solidarity and sustainability as the focal point. This program will *break through the ice* student organizations commonly face in order to establish an environment that fosters a positive involvement experience! Current student leaders, aspiring student leaders, and general members of all student organizations are encouraged to participate in the program series **I.C.E.**

The Center for Student Activities and Involvement is thrilled about the opportunity to provide this series of training sessions to our registered student organizations. Participation in the **OPERATION: F.I.R.E. & I.C.E.** program will provide your leaders and members with the power to take your organization to the next level!

For more information about **OPERATION: F.I.R.E. & I.C.E.** content and dates, please visit <http://www.union.ufl.edu/csai> or contact Josh Earley, Program Coordinator, at joshe@union.ufl.edu or 352.392.1671.
